Wesco earned the #24 spot on the Fortune AIQ 75 list, a ranking that is determined by combining measures of enterprise AI maturity with real-world evidence of how companies are investing in and applying AI. "We prioritize AI as a strategic enabler of growth, productivity and customer value, while maintaining a strong focus on governance and innovation. Our inclusion on Fortune's AIQ 75 list recognizes the progress Wesco has made in translating AI investments into enterprise-wide impact and positioning the company for continued success in an increasingly digital world," said John Engel, Chairman,
