### WESCO International, Inc. Reports 2005 First Quarter Results Record First Quarter Sales, Sales Growth Record First Quarter Operating Profit

Contact: Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer WESCO International, Inc. (412) 454-2271, Fax: (412) 454-2477 <a href="http://www.wesco.com">http://www.wesco.com</a>

Pittsburgh, PA, April 21, 2005 – WESCO International, Inc. [NYSE:WCC], a leading provider of electrical MRO products, construction materials, and advanced integrated supply procurement outsourcing services, today announced its 2005 first quarter financial results.

Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer, stated, "Sales increased 17% over the first quarter of 2004 and were a record for the Company, reflecting the continued effectiveness of our organic growth initiatives. Productivity gains from our LEAN programs combined with higher sales resulted in lowering our SG&A expense rate by 90 basis points and produced a 47% improvement in operating profit. We believe we are on track to deliver on our target of improving operating profit rates by two full percentage points over the next 36 months."

Net sales for the first quarter of 2005 were \$990.9 million compared to \$847.8 million in 2004, an increase of 17%. Gross profit increased 15% to a record level of \$185.2 million for the first quarter of 2005 from \$160.9 million in 2004. Gross margins declined to 18.7% from 19.0% in 2004 primarily due to sales mix. Operating income for the current quarter improved by 47% to \$38.6 million from \$26.3 million in last year's comparable quarter. Depreciation and amortization included in operating income was \$3.9 million in 2005's first quarter versus \$5.0 million in 2004. Net income in 2005's first quarter was \$11.3 million, and included an after-tax charge of \$6.5 million associated with the repurchase of \$123.8 million of the Company's senior subordinated notes, compared to \$9.7 million in 2004. Earnings per share in the current quarter were \$0.23 per share, the same as the first quarter of 2004.

Mr. Van Oss continued, "During the quarter, we strengthened our capital structure by redeeming \$124 million of the outstanding and callable Senior Subordinated Notes utilizing \$100 million of proceeds from our December equity offering and low-cost debt from existing credit lines. This redemption resulted in a non-recurring charge of \$6.5 million or \$0.13 per share, most of which is a non-cash charge. The reduction in interest costs going forward improves the Company's cash flow and is slightly accretive to earnings per share."

Chairman and CEO, Roy W. Haley, commented, "WESCO's sales strategy and high levels of organizational productivity continue to be very effective as evidenced by another outstanding financial performance. Strong sales and operating margin improvements are the result of continued operations and administrative execution across all segments of the Company. For the quarter, sales per employee per workday increased 16% to an annual rate of \$732,000, a record for the Company. We are well positioned in the market, and our strategy of growth through multiple sales channels is working."

Mr. Haley continued, "The current outlook for economic activity continues to suggest favorable results for WESCO in 2005. Strong industrial end-user demand coupled with expectations for an improving commercial construction market are the primary contributors to continued sales momentum. Over the last twelve months, WESCO's marketing and sales initiatives have resulted in increased market share and organic sales growth of 16%. Based on current momentum, we expect continuation of double-digit sales growth in the second quarter."

###

Note: Trade accounts receivable and long-term debt have each been reduced by \$298.5 million and \$208.0 million as of March 31, 2005 and December 31, 2004, respectively, in accordance with WESCO's accounting for its accounts receivable securitization facility. In addition, the carrying value of long-term debt decreased a net \$118.1 million during the quarter ended March 31, 2005 primarily as a result of the repurchase of \$123.8 million of the Company's 9-1/8 senior subordinated notes.

Total debt	\$	299.5	\$	417.6
Plus: A/R Securitization		298.5		208.0
Less: Cash and cash equivalents		(18.8)		(34.5)
Total indebtedness (including A/R Securitization Program), net of cash (See Note)	\$	579.2	\$	591.1

Note: Total indebtedness (including A/R Securitization Program), net of cash is provided by the Company as an additional measure of the Company's leverage. Generally accepted accounting principles require that this financing facility be presented off-balance sheet. As management internally evaluates the A/R Securitization Facility as an additional form of indebtedness, management believes it is helpful to provide the readers of its financial statements an evaluation of its total indebtedness from all sources of financing. Cash and cash equivalents are deducted from this total to determine total indebtedness (including A/R Securitization Program), net of cash. This amount represents the Company's net obligation due under all of its financing facilities.

	Months Ended ch 31, 2005
Cash flow provided by operations	\$ 102.5
Less: Increase in A/R Securitization	(90.5)
Less: Capital expenditures	(2.7)
Free cash flow (excluding effects of A/R Securitization Program) (See Note)	\$ 9.3

Note: Free cash flow (excluding the effects of A/R Securitization Program) is provided by the Company as an additional liquidity measure. Generally accepted accounting principles require that changes in this facility be reflected within operating cash flows in the Company's consolidated statement of cash flows. As management internally evaluates the A/R Securitization Facility as an additional form of liquidity, management believes it is helpful to provide the readers of its financial statements with the cash flow from operating activities other than those related to the A/R Securitization Facility. Capital expenditures are deducted from this adjusted operating cash flow amount to determine free cash flow (excluding effects of A/R Securitization Program). This amount represents excess funds available to management to service all of its financing needs (including needs of its A/R Securitization Program) and other investing needs.
