NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION

WESCO International, Inc. (“Wesco International”) and its subsidiaries (collectively, “Wesco” or the “Company”), headquartered in Pittsburgh, Pennsylvania, is a leading provider of business-to-business distribution, logistics services and supply chain solutions.

The Company has operating segments comprising three strategic business units consisting of Electrical & Electronic Solutions (“EES”), Communications & Security Solutions (“CSS”) and Utility & Broadband Solutions (“UBS”).

2. ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements of Wesco have been prepared in accordance with Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (the “SEC”). The unaudited condensed consolidated financial information should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto included in WESCO International, Inc.’s Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the SEC on February 21, 2023. The Condensed Consolidated Balance Sheet at December 31, 2022 was derived from the audited Consolidated Financial Statements as of that date, but does not include all the disclosures required by accounting principles generally accepted in the United States of America.

The unaudited Condensed Consolidated Balance Sheet as of June 30, 2023, the unaudited Condensed Consolidated Statements of Income and Comprehensive Income, the unaudited Condensed Consolidated Statements of Stockholders' Equity for the three and six months ended June 30, 2023, and 2022, and the unaudited Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2023, and 2022, respectively, in the opinion of management, have been prepared on the same basis as the audited Consolidated Financial Statements and include all adjustments necessary for the fair statement of the results of the interim periods presented herein. All adjustments reflected in the unaudited condensed consolidated financial information are of a normal recurring nature unless indicated. The results for the interim periods presented herein are not necessarily indicative of the results to be expected for the full year.

Recently Adopted and Recently Issued Accounting Standards

In September 2022, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2022-04, *Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations*, which requires that a buyer in a supplier finance program disclose sufficient information about the program to allow a user of financial statements to understand the program's nature, activity during the period, changes from period to period, and potential magnitude. The amendments in this ASU are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years, except for the amendment on rollforward information, which is effective for fiscal years beginning after December 15, 2023. The Company adopted this ASU in the first quarter of 2023, except for the amendment on rollforward information, which the Company will begin disclosing in its Annual Report on Form 10-K for the fiscal year ending December 31, 2023. The adoption of this ASU resulted in additional disclosure of the Company's supplier finance program, as described below.

Other pronouncements issued by the FASB or other authoritative accounting standards groups with future effective dates are either not applicable or are not expected to be significant to Wesco's financial position, results of operations or cash flows.

Supplier Finance Programs

The Company has a supplier finance program that is administered by an intermediary. Under this arrangement, participating suppliers may elect to receive early payment of invoices that have been confirmed by the Company, less an interest deduction, which is paid to the supplier by a third-party finance provider. Wesco agrees to pay the stated amount of confirmed invoices in full on the original due date of the invoices, which is typically within 45 to 90 days of the invoice date, regardless of whether the supplier elects to receive early payment from the third-party finance provider. The Company does not provide assets pledged as security or other forms of guarantees to the finance provider or intermediary under this arrangement. As of June 30, 2023 and December 31, 2022, the amounts due to suppliers that participate in the Company's supplier finance program were approximately \$29.4 million and \$30.7 million, respectively, which are included in accounts payable in the Condensed Consolidated Balance Sheet.

Dividends

On March 3, 2023, the Board of Directors of Wesco International declared a quarterly cash dividend of \$0.375 per share of the Company's common stock to stockholders of record as of the close of business on March 15, 2023. On March 31, 2023, the Company paid cash dividends of \$19.2 million.

On June 1, 2023, the Board of Directors of Wesco International declared a quarterly cash dividend of \$0.375 per share of the Company's common stock to stockholders of record as of the close of business on June 15, 2023. On June 30, 2023, the Company paid cash dividends of \$19.2 million.

During the three and six months ended June 30, 2023, the Board of Directors of Wesco International also declared and the Company paid quarterly cash dividends of \$0.664 per depository share totaling \$14.4 million and \$28.7 million, respectively.

3. REVENUE

Wesco distributes products and provides services to customers globally in various end markets within its business segments. The segments operate in the United States, Canada and various other countries.

The following tables disaggregate Wesco's net sales by segment and geography for the periods presented:

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(CONTINUED)
(unaudited)

Due to the terms of certain contractual arrangements, Wesco bills or receives payment from its customers in advance of satisfying the respective performance obligation. Such advance billings or payments are recorded as deferred revenue and recognized as revenue when the performance obligation has been satisfied and control has transferred to the customer, which is generally upon shipment. Deferred revenue is usually recognized within a year or less from the date of the advance billing or payment. At June 30, 2023 and December 31, 2022, \$104.8 million and \$99.6 million, respectively, of deferred revenue was recorded as a component of other current liabilities in the Condensed Consolidated Balance Sheets. The Company recognized \$21.0 million and \$42.0 million of revenue during the three and six months ended June 30, 2023, respectively, that was included in the deferred revenue balance as of December 31, 2022. The amount of revenue recognized during the three and six months ended June 30, 2022 that was deferred as of December 31, 2021 was not material.

The Company also has certain long-term contractual arrangements where revenue is recognized over time based on the cost-to-cost input method. As of June 30, 2023 and December 31, 2022, the Company had contract assets of \$40.7 million and \$27.5 million, respectively, resulting from contracts where the amount of revenue recognized exceeded the amount billed to the customer. Contract assets are recorded in the Condensed Consolidated Balance Sheets as a component of prepaid expenses and other current assets.

Wesco's revenues are adjusted for variable consideration, which includes customer volume rebates, returns and discounts. Wesco measures variable consideration by estimating expected outcomes using analysis and inputs based upon historical data, as well as current and forecasted information. Variable consideration is reviewed by management on a monthly basis and revenue is adjusted accordingly. Variable consideration reduced revenue for the three months ended June 30, 2023 and 2022 by approximately \$118.5 million and \$108.5 million, respectively, and by approximately \$215.0 million and \$203.6 million for the six months ended June 30, 2023 and 2022, respectively. The variable consideration for the three months ended June 30, 2022 reflects an adjustment that increased the previously disclosed amount by \$6.2 million and the variable consideration for the six months ended June 30, 2022 reflects an adjustment that reduced the previously disclosed amount by \$13.9 million. As of June 30, 2023 and December 31, 2022, the Company's estimated product return obligation was \$41.9 million and \$46.5 million, respectively.

Billings to customers for shipping and handling are recognized in net sales. Wesco has elected to recognize shipping and handling costs as a fulfillment cost. Shipping and handling costs recorded as a component of selling, general and administrative expenses totaled \$79.1 million and \$76.5 million for the three months ended June 30, 2023 and 2022, respectively, and \$156.0 million and \$144.1 million for the six months ended June 30, 2023 and 2022, respectively.

4. ACQUISITIONS

Rahi Systems Holdings, Inc.

On November 1, 2022, through its wholly-owned subsidiary WESCO Distribution, Inc. ("Wesco Distribution"), the Company acquired 100% of the equity securities of Rahi Systems Holdings, Inc. ("Rahi Systems" or "Rahi"). Headquartered in Fremont, California, Rahi Systems is a leading provider of global hyperscale data center solutions with over 900 employees in 25 countries. Rahi's expertise with complex information technology projects and global presence strengthen Wesco's data center solution offerings. Wesco Distribution funded the purchase price paid at closing with cash on hand as well as borrowings under its accounts receivable securitization and revolving credit facilities.

Since the initial measurement of the identified assets acquired and liabilities assumed, the Company has recorded adjustments to inventories of \$21.8 million and accounts payable of \$28.0 million. The net impact of these adjustments was an increase to goodwill of \$6.2 million.

The estimated fair values of assets acquired and liabilities assumed are based on preliminary calculations and valuations using estimates and assumptions at the time of acquisition. As the Company obtains additional information during the measurement period (not to exceed one year from the acquisition date), estimates and assumptions for the preliminary purchase consideration allocations may change materially.

The results of operations of Rahi Systems are included in Wesco's unaudited Condensed Consolidated Financial Statements beginning on November 1, 2022, the acquisition date. For the three and six months ended June 30, 2023, the Condensed Consolidated Statement of Income includes \$150.3 million and \$286.6 million of net sales, respectively, and an immaterial amount of income from operations for Rahi Systems. The Company has not presented supplemental pro forma revenue and earnings of the combined business as the acquisition of Rahi Systems is not material to Wesco's unaudited Condensed Consolidated Financial Statements.

6. STOCK-BASED COMPENSATION

Wesco's stock-based compensation awards consist of stock options, stock-settled stock appreciation rights, restricted stock units and performance-based awards. Compensation cost for all stock-based awards is measured at fair value on the date of grant and compensation cost is recognized, net of estimated forfeitures, over the service period for awards expected to vest. The fair value of stock options and stock-settled stock appreciation rights is determined using the Black-Scholes model. The fair value of restricted stock units and performance-based awards with performance conditions is determined by the grant-date closing price of Wesco's common stock. The forfeiture assumption is based on Wesco's historical participant behavior that is reviewed on at least an annual basis. For stock options and stock-settled stock appreciation rights that are exercised, and for restricted stock units and performance-based awards that vest, shares are issued out of Wesco's outstanding common stock.

Stock options and stock-settled stock appreciation rights vest ratably over a three-year period and terminate on the tenth anniversary of the grant date unless terminated sooner under certain conditions. Restricted stock unit awards that were granted under the Company's 1999 Long-Term Incentive Plan, as amended and restated, vest fully on the third anniversary of the date of grant. The special award described below vests in tranches. Restricted stock units awarded under the WESCO International, Inc. 2021 Omnibus Incentive Plan, which was adopted on May 27, 2021, vest ratably over a three-year period on each of the first, second and third anniversaries of the grant date. Vesting of performance-based awards is based on a three-year performance period, and the number of shares earned, if any, depends on the attainment of certain performance levels. Outstanding awards would vest upon the consummation of a change in control transaction with performance-based awards vesting at the target level.

On July 2, 2020, a special award of restricted stock units was granted to certain officers of the Company. These awards vested in tranches of 30% on each of the first and second anniversaries of the grant date and will vest 40% on the third anniversary of the grant date, subject to continued employment through the applicable anniversary date.

Performance-based awards are based on two equally-weighted performance measures: the three-year average growth rate of Wesco's net income attributable to common stockholders and the three-year cumulative return on net assets. These awards are accounted for as awards with performance conditions; compensation cost is recognized over the performance period based upon Wesco's determination of whether it is probable that the performance targets will be achieved.

During the three and six months ended June 30, 2023 and 2022, Wesco granted the following stock options, restricted stock units, and performance-based awards at the following weighted-average fair values:

	Three Months Ended		Six Months Ended	
	June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022
Stock options granted	1,954	—	77,136	89,550
Weighted-average fair value	\$ 76.75	\$ —	\$ 76.77	\$ 57.26
Restricted stock units granted	3,295	—	173,864	224,946
Weighted-average fair value	\$ 138.11	\$ —	\$ 170.41	\$ 122.11
Performance-based awards granted ⁽¹⁾	3,074	—	211,445	83,991
Weighted-average fair value ⁽¹⁾	\$ 150.32	\$ —	\$ 86.88	\$ 122.09

⁽¹⁾ As described further below, the six months ended June 30, 2023 includes performance-based awards granted in February 2020 for which actual achievement levels were certified in February 2023, as well as performance-based awards granted during the six months ended June 30, 2023.

The fair values of stock options, as disclosed in the table above, were estimated using the following weighted-average assumptions in the respective periods:

	Three Months Ended		Six Months Ended	
	June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022
Risk free interest rate	4.0 %	n/a	4.1 %	1.9 %
Expected life (in years)	5	n/a	5	7
Expected volatility	51 %	n/a	50 %	43 %
Expected dividend yield	0.89 %	n/a	0.88 %	n/a

The risk-free interest rate is based on the U.S. Treasury Daily Yield Curve rate as of the grant date. The expected life is based on historical exercise experience, the expected volatility is based on the volatility of the Company's daily stock price over the expected life preceding the grant date of the award, and the expected dividend yield is based on the calculated yield on the Company's common stock at date of grant using the current fiscal year projected dividend distribution rate. The Company did not pay dividends to holders of its common stock during the three and six months ended June 30, 2022.

The following table sets forth a summary of stock options and related information for the six months ended June 30, 2023:

	Awards	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (In years)	Aggregate Intrinsic Value (In millions)

7. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income attributable to common stockholders by the weighted-average number of common shares outstanding during the periods. Diluted earnings per share is computed by dividing net income attributable to common stockholders by the weighted-average common shares and common share equivalents outstanding during the periods. The dilutive effect of common share equivalents is considered in the diluted earnings per share computation using the treasury stock method, which includes consideration of equity awards.

The following table sets forth the computation of basic and diluted earnings per share for the periods presented:

	Three Months Ended		Six Months Ended	
	June 30		June 30	
(In millions, except per share data)	2023	2022 ⁽¹⁾	2023	2022 ⁽¹⁾

Earnings per share attributable to common stockholders				
Basic	\$ 3.48	\$ 4.07	\$ 7.07	\$ 7.33
Diluted	\$ 3.41	\$ 3.95	\$ 6.90	\$ 7.13

⁽¹⁾ Basic and diluted earnings per share for the three and six months ended June 30, 2022 were previously calculated and reported based on amounts as presented in thousands. As such, certain prior year amounts may not foot or recalculate based on the amounts as presented in millions in the current year presentation.

The computation of diluted earnings per share attributable to common stockholders excludes stock-based awards that would have had an antidilutive effect on earnings per share. For the three and six months ended June 30, 2023, there were approximately 0.4 million antidilutive shares. For the three and six months ended June 30, 2022, there were approximately 0.1 million antidilutive shares.

⁽¹⁾ As of December 31, 2022, short-term debt and current portion of long-term debt included the \$58.6 million aggregate principal amount of the Company's 5.50% Anixter Senior Notes due 2023, which matured on March 1, 2023.

5.50% Anixter Senior Notes due 2023

On March 1, 2023, Wesco Distribution repaid the \$58.6 million aggregate principal amount of its 5.50% Anixter Senior Notes due 2023 plus accrued interest up to, but not including, the maturity date. The repayment was funded with borrowings under the Company's Revolving Credit Facility and had no impact on the Company's results of operations.

⁽²⁾ Defined as the EECOL Electric ULC Retirement Plan, the EECOL Electric ULC Supplemental Executive Retirement Plan, the Pension Plan for Employees of Anixter Canada Inc., and various defined benefit pension plans covering employees of foreign subsidiaries in Europe.

⁽³⁾ For the three and six months ended June 30, 2023 and 2022, no material amounts were reclassified from accumulated other comprehensive income into net income.

Service cost is reported as a component of selling, general and administrative expenses. The other components of net periodic pension (benefit) cost totaling net benefits of \$0.5 million and \$3.5 million for the three months ended June 30, 2023 and 2022, respectively, and \$0.7 million and \$7.1 million for the six months ended June 30, 2023 and 2022, respectively are presented as components of other expense, net.

The Company expects to contribute approximately \$7.0 million to its Foreign Plans in 2023, of which approximately \$4.3 million and \$6.7 million was contributed during the three and six months ended June 30, 2023, respectively. The Company does not expect to make a contribution to its domestic qualified pension plan in 2023 due to its overfunded status.

Other Employee Benefit Plans

Wesco sponsors defined contribution retirement savings plans for the majority of its employees in the U.S. and certain employees in Canada, which provide employer contributions.

Wesco incurred charges of \$21.5 million and \$14.9 million for the three months ended June 30, 2023 and 2022, respectively, and \$42.9 million and \$33.0 million for the six months ended June 30, 2023 and 2022, respectively, for its defined contribution plans.

Wesco Distribution sponsors a non-qualified deferred compensation plan (the "Wesco Deferred Compensation Plan") that permits select employees to make pre-tax deferrals of salary and bonus. Employees have the option to transfer balances allocated to their accounts in the Wesco Deferred Compensation Plan into any of the available investment options. The Wesco Deferred Compensation Plan is an unfunded plan. As of June 30, 2023 and December 31, 2022, the Company's obligation under the Wesco Deferred Compensation Plan was \$26.6 million and \$20.3 million, respectively, which is included in other noncurrent liabilities in the Condensed Consolidated Balance Sheets.

10. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments primarily consist of cash and cash equivalents, accounts receivable, accounts payable, bank overdrafts, outstanding indebtedness, foreign currency forward contracts, and benefit plan assets. Except for benefit plan assets, outstanding indebtedness and foreign currency forward contracts, the carrying value of the Company's other financial instruments approximates fair value.

The assets of the Company's various defined benefit plans are primarily comprised of common/collective/pool funds (i.e., mutual funds). These funds are valued at the net asset value (NAV) of shares held in the underlying funds. Investments for which fair value is measured using the NAV per share practical expedient are not classified in the fair value hierarchy.

The Company uses a market approach to determine the fair value of its debt instruments, utilizing quoted prices in active markets, interest rates and other relevant information generated by market transactions involving similar instruments. Therefore, the inputs used to measure the fair value of the Company's debt instruments are classified as Level 2 within the fair value hierarchy.

The carrying value of Wesco's debt instruments with fixed interest rates was \$2,823.1 million and \$2,881.2 million as of June 30, 2023 and December 31, 2022, respectively. The estimated fair value of this debt was \$2,876.3 million and \$2,929.5 million as of June 30, 2023 and December 31, 2022, respectively. The reported carrying values of Wesco's other debt instruments, including those with variable interest rates, approximated their fair values as of June 30, 2023 and December 31, 2022.

The Company purchases foreign currency forward contracts to reduce the effect of fluctuations in foreign currency-denominated accounts on its earnings. The foreign currency forward contracts are not designated as hedges for accounting purposes. The Company's strategy is to negotiate terms for its derivatives and other financial instruments to be highly effective, such that the change in the value of the derivative offsets the impact of the underlying hedge. Its counterparties to foreign currency forward contracts have investment-grade credit ratings. The Company regularly monitors the creditworthiness of its counterparties to ensure no issues exist that could affect the value of its derivatives.

The Company does not hedge 100% of its foreign currency-denominated accounts. In addition, the results of hedging can vary significantly based on various factors, such as the timing of executing foreign currency forward contracts versus the movement of currencies, as well as fluctuations in the account balances throughout each reporting period. The fair value of foreign currency forward contracts is based on the difference between the contract rate and the current price of a forward contract with an equivalent remaining term. The fair value of foreign currency forward contracts is measured using observable market information. These inputs are considered Level 2 in the fair value hierarchy. At June 30, 2023 and December 31, 2022, foreign currency forward contracts were revalued at then-current foreign exchange rates with the changes in valuation reflected directly in other non-operating expense (income) in the Condensed Consolidated Statements of Income and Comprehensive Income offsetting the transaction gain (loss) recorded on foreign currency-denominated accounts. The gross and net notional amounts of foreign currency forward contracts outstanding were approximately \$132.9 million and \$172.8 million, at June 30, 2023 and December 31, 2022, respectively. While all of the Company's foreign currency forward contracts are subject to master netting arrangements with its counterparties, assets and liabilities related to these contracts are presented on a gross basis within the Condensed Consolidated Balance Sheets. The gross fair value of assets and liabilities related to foreign currency forward contracts were immaterial.

11. COMMITMENTS AND CONTINGENCIES

From time to time, a number of lawsuits and claims have been or may be asserted against the Company relating to the conduct of its business, including litigation relating to commercial, product and employment matters (including wage and hour). The outcome of any litigation cannot be predicted with certainty, and some lawsuits may be determined adversely to Wesco. However, management does not believe that the ultimate outcome of any such pending matters is likely to have a material adverse effect on Wesco's financial condition or liquidity, although the resolution in any fiscal period of one or more of these matters may have a material adverse effect on Wesco's results of operations for that period.

12. INCOME TAXES

The effective tax rate for the three months ended June 30, 2023 and 2022 was 27.2% and 26.5%, respectively. For the three months ended June 30, 2023 and 2022, the effective tax rates reflect discrete income tax benefits of \$0.9 million and \$0.3 million, respectively, resulting from the exercise and vesting of stock-based awards. These discrete income tax benefits reduced the effective tax rates in such periods by approximately 0.3 and 0.1 percentage points, respectively.

The effective tax rate for the six months ended June 30, 2023 and 2022 was 22.9% and 22.6%, respectively. For the six months ended June 30, 2023 and 2022, the effective tax rates reflect discrete income tax benefits of \$22.1 million and \$6.1 million, respectively, resulting from the exercise and vesting of stock-based awards. For the six months ended June 30, 2022, the effective tax rate also reflects a discrete income tax benefit of \$13.4 million resulting from a reduction to the valuation allowance recorded against foreign tax credit carryforwards. These discrete income tax benefits reduced the effective tax rates in such periods by approximately 4.4 and 3.7 percentage points, respectively.

The effective tax rate differs from the federal statutory income tax rate due primarily to state income taxes, nondeductible expenses, and the inclusion of global intangible low-taxed income.

There have been no material adjustments to liabilities for uncertain tax positions since December 31, 2022.

13. BUSINESS SEGMENTS

The Company has operating segments comprising three strategic business units consisting of EES, CSS and UBS. These operating segments are equivalent to the Company's reportable segments. The Company's chief operating decision maker evaluates the performance of its operating segments based on net sales, adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA"), and adjusted EBITDA margin percentage.

The Company incurs corporate costs primarily related to treasury, tax, information technology, legal and other centralized functions. The Company also has various corporate assets. Segment assets may not include jointly used assets, but segment results include depreciation expense or other allocations related to those assets. Interest expense and other non-operating items are either not allocated to the segments or reviewed on a segment basis. Corporate expenses and assets not directly identifiable with a reportable segment are reported in the tables below to reconcile the reportable segments to the consolidated financial statements.

The following tables set forth financial information by reportable segment for the periods presented:

Note: Adjusted EBITDA and Adjusted EBITDA margin % are non-GAAP financial measures that provide indicators of the Company's performance and its ability to meet debt service requirements. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation and amortization before other non-operating expenses (income), non-cash stock-based compensation expense, merger-related and integration costs, and restructuring costs. Adjusted EBITDA margin % is calculated by dividing Adjusted EBITDA by net sales.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto included in Item 1 of this Quarterly Report on Form 10-Q and WESCO International, Inc.'s audited Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2022. The matters discussed herein may contain forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from expectations. Certain of these risks are set forth in Item 1A of WESCO International, Inc.'s Annual Report on Form 10-K for the fiscal year ended December 31, 2022, as well as WESCO International, Inc.'s other reports filed with the Securities and Exchange Commission (the "SEC"). In this Item 2, "Wesco" refers to WESCO International, Inc., and its subsidiaries and its predecessors unless the context otherwise requires. References to "we," "us," "our" and the "Company" refer to Wesco and its subsidiaries.

In addition to the results provided in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), our discussion and analysis of financial condition and results of operations includes certain non-GAAP financial measures, which are defined further below. These financial measures include organic sales growth, adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted EBITDA margin, financial leverage, adjusted selling, general and administrative expenses, adjusted income from operations, adjusted provision for income taxes, adjusted income before income taxes, adjusted net income, adjusted net income attributable to WESCO International, Inc., adjusted net income attributable to common stockholders, and adjusted earnings per diluted share. We believe that these non-GAAP measures are helpful to users of our financial statements as they provide a better understanding of our financial condition and results of operations on a comparable basis. Additionally, certain non-GAAP measures either focus on or exclude items impacting comparability of results, allowing users to more easily compare our financial performance from period to period. Management does not use these non-GAAP financial measures for any purpose other than the reasons stated above.

Company Overview

Wesco, headquartered in Pittsburgh, Pennsylvania, is a leading provider of business-to-business distribution, logistics services and supply chain solutions.

We employ approximately 20,000 people, maintain relationships with more than 50,000 suppliers, and serve approximately 150,000 customers worldwide. With millions of products, end-to-end supply chain services, and leading digital capabilities, we provide innovative solutions to meet customer needs across commercial and industrial businesses, contractors, government agencies, institutions, telecommunications providers, and utilities. Our innovative value-added solutions include supply chain management, logistics and transportation, procurement, warehousing and inventory management, as well as kitting and labeling, limited assembly of products and installation enhancement. We have approximately 800 branches, warehouses and sales offices with operations in more than 50 countries, providing a local presence for customers and a global network to serve multi-location businesses and multi-national corporations.

We have operating segments comprising three strategic business units consisting of Electrical & Electronic Solutions ("EES"), Communications & Security Solutions ("CSS") and Utility & Broadband Solutions ("UBS"). These operating segments are equivalent to our reportable segments. The following is a description of each of our reportable segments and their business activities.

Electrical & Electronic Solutions

The EES segment, with approximately 7,000 employees supporting customers in more than 50 countries, supplies a broad range of products and solutions primarily to the construction, industrial, and original equipment manufacturer ("OEM") markets. The product portfolio in this business includes a broad range of electrical equipment and supplies, automation and connected devices (the "Internet of Things" or "IoT"), security, lighting, wire and cable, safety, and maintenance, repair and operating ("MRO") products from industry-leading manufacturing partners. The EES service portfolio includes contractor solutions to improve project execution, direct and indirect manufacturing supply chain optimization programs, lighting and renewables advisory services, and digital and automation solutions to improve safety and productivity.

Communications & Security Solutions

The CSS segment, with over 4,600 employees supporting customers in more than 50 countries, is a global leader in the network infrastructure and security markets. CSS sells products directly to end-users or through various channels including data communications contractors, security, network, professional audio/visual and systems integrators. In addition to the core network infrastructure and security portfolio, CSS has a broad offering of safety and energy management solutions. CSS products are often combined with supply chain services to increase efficiency and productivity, including installation enhancement, project deployment, advisory and IoT and digital services.

Utility & Broadband Solutions

The UBS segment, with over 2,700 employees supporting customers primarily in the U.S. and Canada, provides products and services to investor-owned utilities, public power companies, including municipalities, as well as global service providers, wireless providers, broadband operators and the contractors that service these customers. The UBS segment also includes Wesco's integrated supply business, which provides products and services to large industrial and commercial end-users to support their MRO spend. The products sold into the utility and broadband markets include wire and cable, transformers, transmission and distribution hardware, switches, protective devices, connectors, lighting, conduit, fiber and copper cable, connectivity products, pole line hardware, racks, cabinets, safety and MRO products, and point-to-point wireless devices. The UBS segment also offers a complete set of service solutions to improve customer supply chain efficiencies.

Overall Financial Performance

Our financial results for the first six months of 2023 compared to the first six months of 2022 reflect single-digit sales growth driven by the benefits of price inflation and higher volumes, increased scale, and secular demand trends, as well as margin expansion and the realization of integration synergies, partially offset by higher payroll and payroll-related expenses, costs to operate our facilities, along with expenses associated with our digital transformation initiatives.

Net sales for the first six months of 2023 increased \$0.9 billion, or 8.2%, over the corresponding prior year period. The increase reflects the estimated impact of changes in price of approximately 4%, estimated volume growth of approximately 3% (driven in part by secular demand trends, execution of our cross-sell program, and an improving supply chain). The increase also reflects the favorable impact of 2.7% from the acquisition of Rahi Systems Holdings, Inc. ("Rahi Systems"), which closed in November of 2022. These positive factors were partially offset by the negative impact of fluctuations in foreign exchange rates of 1.1%. Cost of goods sold as a percentage of net sales was 78.2% and 78.5% for the first six months of 2023 and 2022, respectively. The improvement of 30 basis points reflects our continued focus on a strategy of pricing products and services to realize the value that we provide to our customers as a result of our broad portfolio of product and service offerings, global footprint and capabilities ("value-driven pricing") and pass-through of inflationary costs, along with the continued momentum of our margin improvement program.

Income from operations was \$710.2 million for the first six months of 2023 compared to \$654.7 million for the first six months of 2022, an increase of \$55.5 million, or 8.5%. Income from operations as a percentage of net sales was 6.3% for the current and prior year six-month period. Income from operations for the first six months of 2023 includes merger-related and integration costs of \$30.4 million, restructuring costs of \$9.8 million, and accelerated trademark amortization expense of \$0.8 million. Adjusted for these amounts, income from operations was 6.7% of net sales for the first six months of 2023. For the first six months of 2022, income from operations was 6.7% of net sales, as adjusted for merger-related and integration costs of \$39.0 million and accelerated trademark amortization expense of \$9.0 million. For the six months ended June 30, 2023, income from operations improved compared to the prior year due to sales growth and lower cost of goods sold as a percentage of net sales, as well as the realization of integration synergies and a reduction to incentive compensation expense. Income from operations for the first six months of 2023 was negatively impacted by higher salaries and benefits due to wage inflation and increased headcount, including the impact of the Rahi Systems acquisition, as well as an increase in volume-related costs such as commissions and transportation. The costs to operate our facilities also unfavorably affected income from operations. In addition, digital transformation initiatives contributed to higher expenses in the first six months of 2023.

Earnings per diluted share for the first six months of 2023 was \$6.90, based on 52.4 million diluted shares, compared to \$7.15 for the first six months of 2022, based on 52.2 million diluted shares, a decrease of 3.5%. Adjusted for merger-related and integration costs, restructuring costs, accelerated trademark amortization expense, and the related income tax effects, earnings per diluted share for the first six months of 2023 was \$7.47. Adjusted for merger-related and integration costs, accelerated trademark amortization expense, and the related income tax effects, earnings per diluted share for the first six months of 2022 was \$7.82. Adjusted earnings per diluted share decreased 4.5% year-over-year.

Our industry and the broader economy have experienced supply chain challenges, including product delays and backlogged orders, shortages in raw materials and components, labor shortages, transportation challenges, and higher costs. We have aggressively responded to these supply chain issues which have largely improved and become manageable during the first six months of 2023, except with respect to certain products in our EES and UBS segments. We intend to continue to actively manage the impact that these supply chain issues may have on our results of operations.

Cash Flow

Operating cash flow for the first six months of 2023 was an inflow of \$62.2 million. Net cash provided by operating activities included net income of \$389.6 million and non-cash adjustments to net income totaling \$139.8 million, which were primarily comprised of depreciation and amortization of \$91.3 million, stock-based compensation expense of \$23.9 million, deferred income taxes of \$16.2 million, and amortization of debt discount and debt issuance costs of \$7.4 million. Operating cash flow was negatively impacted by net changes in assets and liabilities of \$467.2 million, which were primarily comprised of an increase in trade accounts receivable of \$162.9 million and a decrease in accounts payable of \$78.6 million due to the timing of receipts from customers and payments to suppliers, respectively. Net operating cash flow was also negatively impacted by \$73.9 million from an increase in inventories. Inventories grew at a slower rate than sales, as supply chain lead times have continued to normalize. Additionally, the payment of management incentive compensation earned in 2022 resulted in a cash outflow of approximately \$157.2 million in the first six months of 2023, which was partially offset by the accrual of management incentive compensation earned in the current year.

Investing activities primarily included \$44.3 million of capital expenditures mostly consisting of internal-use computer software and information technology hardware to support our digital transformation initiatives, as well as equipment and leasehold improvements to support our global network of branches, warehouses and sales offices.

Financing activities were primarily comprised of net borrowings of \$151.7 million related to our revolving credit facility (the "Revolving Credit Facility"), net borrowings of \$15.0 million related to our accounts receivable securitization facility (the "Receivables Facility"), and the repayment of our \$58.6 million aggregate principal amount of 5.50% Anixter Senior Notes due 2023, which matured on March 1, 2023. Financing activities for the first six months of 2023 also included \$38.4 million and \$28.7 million of dividends paid to holders of our common stock and Series A Preferred Stock, respectively, and \$54.2 million of payments for taxes related to the exercise and vesting of stock-based awards.

Financing Availability

As of June 30, 2023, we had \$514.2 million in total available borrowing capacity under our Revolving Credit Facility and \$75.0 million of available borrowing capacity under our Receivables Facility. The Revolving Credit Facility and the Receivables Facility mature in March 2027 and March 2025, respectively. As of June 30, 2023, we also had \$8.2 million of borrowing capacity available under our international lines of credit that did not directly reduce availability under the Revolving Credit Facility.

Results of Operations

Second Quarter of 2023 versus Second Quarter of 2022

Net Sales

The following table sets forth net sales and organic sales growth for the periods presented:

	Three Months Ended		Growth/(Decline)				
	June 30, 2023	June 30, 2022	Reported	Acquisition Impact	Foreign Exchange Impact	Workday Impact	Organic Sales Growth
	(In millions)						
Net sales	\$ 5,745.5	\$ 5,483.5	4.8%	2.7 %	(0.7)%	— %	2.8 %

Note: Organic sales growth is a non-GAAP financial measure of sales performance. Organic sales growth is calculated by deducting the percentage impact from acquisitions and divestitures for one year following the respective transaction, fluctuations in foreign exchange rates and number of workdays from the reported percentage change in consolidated net sales. Workday impact represents the change in the number of operating days period-over-period after adjusting for weekends and public holidays in the United States; there was no change in the number of workdays in the second quarter of 2023 compared to the second quarter of 2022.

Net sales were \$5.7 billion for the second quarter of 2023 compared to \$5.5 billion for the second quarter of 2022, an increase of 4.8%. Adjusting for the favorable impact from the acquisition of Rahi Systems of 2.7% and the unfavorable impact from fluctuations in foreign exchange rates of 0.7%, organic sales for the second quarter of 2023 grew by 2.8%, reflecting the impact of changes in price, which favorably impacted organic sales by approximately 3%. Volume growth did not have a material impact on the year-over-year increase in organic sales, as increases in sales volumes in the CSS and UBS operating segments were offset by a decrease in volume in the EES segment.

Cost of Goods Sold

Cost of goods sold for the second quarter of 2023 was \$4.5 billion compared to \$4.3 billion for the second quarter of 2022, an increase of \$0.2 billion. Cost of goods sold as a percentage of net sales was 78.4% and 78.3% for the second quarter of 2023 and 2022, respectively. The unfavorable increase of 10 basis points reflects a shift in sales mix between our operating segments. The negative impact of the shift in sales mix was partially offset by our continued focus on value-driven pricing.

Selling, General and Administrative Expenses

Selling, general and administrative (“SG&A”) expenses primarily include payroll and payroll-related costs, shipping and handling, travel and entertainment, facilities, utilities, information technology expenses, professional and consulting fees, credit losses, gains (losses) on the sale of property and equipment, as well as real estate and personal property taxes. SG&A expenses for the second quarter of 2023 totaled \$831.7 million versus \$772.9 million for the second quarter of 2022, an increase of \$58.8 million, or 7.6%. As a percentage of net sales, SG&A expenses were 14.5% and 14.1% for the second quarter of 2023 and 2022, respectively. SG&A expenses for the second quarter of 2023 and 2022 include merger-related and integration costs of \$10.9 million and \$13.4 million, respectively. SG&A expenses for the second quarter of 2023 also include \$9.8 million of restructuring costs. Adjusted for merger-related and integration costs and restructuring costs, SG&A expenses were \$811.0 million, or 14.1% of net sales, for the second quarter of 2023 and \$759.5 million, or 13.9% of net sales, for the second quarter of 2022.

SG&A payroll and payroll-related expenses for the second quarter of 2023 of \$523.5 million increased by \$30.1 million compared to the same period in 2022 as a result of higher salaries and benefits due to wage inflation and increased headcount, including the impact of the Rahi Systems acquisition. This increase in payroll and payroll-related expenses also includes an increase in sales commissions of \$7.4 million and a reduction to incentive compensation expense of \$25.8 million.

SG&A expenses not related to payroll and payroll-related costs for the second quarter of 2023 were \$308.2 million, an increase of \$28.7 million compared to the same period in 2022, which primarily reflects higher costs to operate our facilities of \$10.6 million, and higher employee expenses of \$4.8 million due to increased headcount, as well as increased transportation costs of \$2.6 million driven by sales growth, and the Rahi Systems acquisition. In addition, digital transformation initiatives contributed to higher expenses of \$5.1 million in the second quarter of 2023, including those related to professional and consulting fees. These increases were partially offset by the realization of integration cost synergies.

Depreciation and Amortization

Depreciation and amortization increased \$1.1 million to \$46.9 million for the second quarter of 2023 compared to \$45.8 million for the second quarter of 2022. The second quarter of 2023 and 2022 includes \$0.8 million and \$3.7 million, respectively, of accelerated amortization expense resulting from changes in the estimated useful lives of certain legacy trademarks that are migrating to our master brand architecture.

Income from Operations

Income from operations was \$363.8 million for the second quarter of 2023 compared to \$370.7 million for the second quarter of 2022. The decrease of \$6.9 million, or 1.9%, reflects slightly higher cost of goods sold as a percentage of net sales and higher SG&A expenses, as described above, partially offset by sales growth and the realization of integration synergies.

Interest Expense, net

Net interest expense totaled \$98.8 million for the second quarter of 2023 compared to \$68.5 million for the second quarter of 2022. The increase of \$30.3 million, or 44.2%, reflects higher borrowings and an increase in variable interest rates.

Other Expense, net

Other non-operating expense totaled \$0.8 million for the second quarter of 2023 compared to \$1.2 million for the second quarter of 2022.

Income Taxes

The provision for income taxes was \$71.8 million for the second quarter of 2023 compared to \$79.9 million for the corresponding quarter of the prior year, resulting in effective tax rates of 27.2% and 26.5%, respectively.

Net Income and Earnings per Share

Net income and earnings per diluted share attributable to common stockholders were \$178.7 million and \$3.41, respectively, for the second quarter of 2023 compared to \$206.3 million and \$3.95, respectively, for the second quarter of 2022. Adjusted for merger-related and integration costs, restructuring costs, accelerated trademark amortization expense, and the related income tax effects, net income and earnings per diluted share attributable to common stockholders were \$194.3 million and \$3.71, respectively, for the three months ended June 30, 2023. Adjusted for merger-related and integration costs, accelerated trademark amortization expense, and the related income tax effects, net income and earnings per diluted share attributable to common stockholders were \$218.9 million and \$4.19, respectively, for the three months ended June 30, 2022.

Adjusted EBITDA

Adjusted EBITDA was \$442.3 million for the second quarter of 2023, compared to \$444.4 million for the second quarter of 2022. Adjusted EBITDA decreased \$2.1 million, or 0.5% year-over-year. The decrease primarily reflects the \$262.0 million increase in net sales, partially offset by a corresponding increase in cost of goods sold of \$209.0 million, and a \$58.8 million increase in SG&A expenses, as described above. Also contributing to the decrease in adjusted EBITDA were decreases in stock-based compensation expense and merger-related and integration costs of \$3.6 million and \$2.5 million, respectively, offset by an increase in restructuring costs of \$9.8 million comprised of severance costs pursuant to an ongoing restructuring plan.

Segment Results

The following is a discussion of the financial results of our operating segments comprising three strategic business units consisting of EES, CSS and UBS for the three months ended June 30, 2023. As further described below and in Note 13, "Business Segments" of our Notes to the unaudited Condensed Consolidated Financial Statements, the performance of our operating segments is based on net sales, adjusted EBITDA, and adjusted EBITDA margin percentage.

Electrical & Electronic Solutions

	Three Months Ended		Growth/(Decline)				
	June 30, 2023	June 30, 2022	Reported	Acquisition Impact	Foreign Exchange Impact	Workday Impact	Organic Sales Growth
	(In millions)						
Net sales	\$ 2,200.3	\$ 2,330.1	(5.6)%	— %	(0.9)%	— %	(4.7)%
Adjusted EBITDA	\$ 189.0	\$ 235.4					
Adjusted EBITDA Margin %	8.6 %	10.1 %					

EES reported net sales of \$2,200.3 million for the second quarter of 2023 compared to \$2,330.1 million for the second quarter of 2022, a decrease of \$129.8 million, or 5.6%. Adjusting for the unfavorable impact from fluctuations in foreign exchange rates of 0.9%, EES organic sales for the second quarter of 2023 declined by 4.7%, reflecting volume contraction, including downturns in the construction and manufactured structures businesses, partially offset by continued momentum in our industrial business, which negatively impacted organic net sales by approximately 6%. In addition, a transfer of certain customer accounts to the CSS segment negatively impacted organic net sales for EES by approximately 2%. These negative factors were partially offset by the impact of changes in price, which favorably impacted organic sales by approximately 3%.

EES reported adjusted EBITDA of \$189.0 million for the second quarter of 2023, or 8.6% of net sales, compared to \$235.4 million for the second quarter of 2022, or 10.1% of net sales. Adjusted EBITDA decreased \$46.4 million, or 19.7% year-over-year. The decrease primarily reflects the \$129.8 million decrease in EES net sales, as described above, partially offset by a corresponding decrease in cost of goods sold of \$94.8 million, which is inclusive of higher inventory write-downs and lower supplier volume rebates totaling approximately \$9.0 million. SG&A expenses increased \$10.8 million as compared to the prior year, which was primarily attributed to higher SG&A payroll and payroll-related expenses of \$14.8 million as a result of higher salaries due to wage inflation and increased headcount. This increase in payroll and payroll-related expenses also includes a reduction to incentive compensation expense of \$10.8 million.

	June 30, 2023	June 30, 2022	Reported	Acquisition Impact	Foreign Exchange Impact	Workday Impact	Organic Sales Growth
	(In millions)						
Net sales	\$ 1,850.9	\$ 1,602.0	15.5%	9.4 %	(0.8)%	— %	6.9 %
Adjusted EBITDA	\$ 179.5	\$ 150.0					
Adjusted EBITDA Margin %	9.7 %	9.4 %					

CSS reported net sales of \$1,850.9 million for the second quarter of 2023 compared to \$1,602.0 million for the second quarter of 2022, an increase of \$248.9 million, or 15.5%. Adjusting for the favorable impact from the acquisition of Rahi Systems of 9.4% and the unfavorable impact from fluctuations in foreign exchange rates of 0.8%, CSS organic sales for the second quarter of 2023 grew by 6.9%, reflecting the impact of changes in price, which favorably impacted organic sales by approximately 1%. Volume growth, which includes strong growth in our network infrastructure and security solutions businesses and improvements in the global supply chain, favorably impacted organic sales by approximately 3%. The transfer of certain customer accounts from the EES segment also positively impacted organic net sales for CSS by approximately 3%.

CSS reported adjusted EBITDA of \$179.5 million for the second quarter of 2023, or 9.7% of net sales, compared to \$150.0 million for the second quarter of 2022, or 9.4% of net sales. Adjusted EBITDA increased \$29.5 million, or 19.7% year-over-year. The increase primarily reflects the \$248.9 million increase in CSS net sales, partially offset by a corresponding increase in cost of goods sold of \$193.2 million due to the factors impacting the overall business, as described above. SG&A expenses increased \$27.6 million as compared to the prior year, which was primarily attributed to higher SG&A payroll and payroll-related expenses of \$15.5 million as a result of higher salaries due to wage inflation and increased headcount, including the impact of the Rahi Systems acquisition. This increase in payroll and payroll-related expenses also includes an increase in sales commissions of \$4.4 million and a reduction to incentive compensation expense of \$4.9 million. Additionally, higher costs to operate our facilities of \$4.2 million and increased transportation costs of \$2.0 million as a result of sales growth, and the Rahi Systems acquisition, contributed to the year-over-year increase in SG&A expenses.

Utility & Broadband Solutions

Net sales	\$ 1,694.3	\$ 1,551.4	9.2%	— %	(0.4)%	— %	9.6 %
Adjusted EBITDA	\$ 188.6	\$ 169.0					
Adjusted EBITDA Margin %	11.1 %	10.9 %					

UBS reported net sales of \$1,694.3 million for the second quarter of 2023 compared to \$1,551.4 million for the second quarter of 2022, an increase of \$142.9 million, or 9.2%. Adjusting for the unfavorable impact from fluctuations in foreign exchange rates of 0.4%, UBS organic sales for the second quarter of 2023 grew by 9.6%, reflecting the impact of changes in price, which favorably impacted organic sales by approximately 6%. Volume growth, which includes secular trends in the utility business that are driving growth, expansion in our integrated supply business, and the benefits of cross selling partially offset by lower sales in our broadband business due to certain customers depleting existing inventories and an overall downturn in the broadband business, particularly in Canada, favorably impacted organic sales by approximately 4%.

UBS reported adjusted EBITDA of \$188.6 million for the second quarter of 2023, or 11.1% of net sales, compared to \$169.0 million for the second quarter of 2022, or 10.9% of net sales. Adjusted EBITDA increased \$19.6 million, or 11.6% year-over-year. The increase primarily reflects the \$142.9 million increase in UBS net sales, partially offset by a corresponding increase in cost of goods sold of \$110.6 million due to the factors impacting the overall business, as described above. SG&A expenses increased \$12.8 million as compared to the prior year, which was primarily attributed to higher SG&A payroll and payroll-related expenses of \$6.5 million as a result of higher salaries due to wage inflation and increased headcount. This increase in payroll and payroll-related expenses also includes an increase in sales commissions of \$1.1 million. Additionally, higher costs to operate our facilities of \$2.7 million and increased transportation costs of \$1.4 million as a result of sales growth, contributed to the year-over-year increase in SG&A expenses.

Note: Adjusted EBITDA and Adjusted EBITDA margin % are non-GAAP financial measures that provide indicators of our performance and ability to meet debt service requirements. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation and amortization before other non-operating expenses (income), non-cash stock-based compensation expense, merger-related and integration costs, and restructuring costs. Adjusted EBITDA margin % is calculated by dividing Adjusted EBITDA by net sales.

Six Months Ended June 30, 2023 versus Six Months Ended June 30, 2022

Net Sales

The following table sets forth net sales and organic sales growth for the periods presented:

	Six Months Ended		Growth/(Decline)				
	June 30, 2023	June 30, 2022	Reported	Acquisition Impact	Foreign Exchange Impact	Workday Impact	Organic Sales Growth
	(In millions)						
Net sales	\$ 11,267.4	\$ 10,415.7	8.2 %	2.7 %	(1.1)%	— %	6.6 %

Note: Organic sales growth is a non-GAAP financial measure of sales performance. Organic sales growth is calculated by deducting the percentage impact from acquisitions and divestitures for one year following the respective transaction, fluctuations in foreign exchange rates and number of workdays from the reported percentage change in consolidated net sales. Workday impact represents the change in the number of operating days period-over-period after adjusting for weekends and public holidays in the United States; there was no change in the number of workdays in the first six months of 2023 compared to the first six months of 2022.

Net sales were \$11.3 billion for the first six months of 2023 compared to \$10.4 billion for the first six months of 2022, an increase of 8.2%. Adjusting for the favorable impact from the acquisition of Rahi Systems of 2.7% and the unfavorable impact from fluctuations in foreign exchange rates of 1.1%, organic sales for the first six months of 2023 grew by 6.6%, reflecting the impact of changes in price, which favorably impacted organic sales by approximately 4%. Volume growth, which includes the impact of secular demand trends, an improving supply chain, and execution of our cross-sell program, favorably impacted organic sales by approximately 3%.

Cost of Goods Sold

Cost of goods sold for the first six months of 2023 was \$8.8 billion compared to \$8.2 billion for the first six months of 2022, an increase of \$0.6 billion. Cost of goods sold as a percentage of net sales was 78.2% for the first six months of 2023 compared to 78.5% for the first six months of 2022. The favorable reduction of 30 basis points reflects our continued focus on value-driven pricing. Additionally, pass-through of inflationary costs, along with the continued momentum of our gross margin improvement program contributed to the favorable reduction in cost of goods sold as a percentage of net sales.

Selling, General and Administrative Expenses

SG&A expenses primarily include payroll and payroll-related costs, shipping and handling, travel and entertainment, facilities, utilities, information technology expenses, professional and consulting fees, credit losses, gains (losses) on the sale of property and equipment, as well as real estate and personal property taxes. SG&A expenses for the first six months of 2023 totaled \$1,649.4 million versus \$1,491.0 million for the first six months of 2022, an increase of \$158.4 million, or 10.6%. As a percentage of net sales, SG&A expenses were 14.6% and 14.3% for the first six months of 2023 and 2022, respectively. SG&A expenses for the first six months of 2023 and 2022 include merger-related and integration costs of \$30.4 million and \$39.0 million, respectively. SG&A expenses for first six months of 2023 also include \$9.8 million of restructuring costs. Adjusted for merger-related and integration costs and restructuring costs, SG&A expenses were \$1,609.2 million, or 14.3% of net sales, for the first six months of 2023 and \$1,452.0 million, or 13.9% of net sales, for the first six months of 2022.

SG&A payroll and payroll-related expenses for the first six months of 2023 of \$1,035.7 million increased by \$74.7 million compared to the same period in 2022 as a result of higher salaries and benefits due to wage inflation and increased headcount, including the impact of the Rahi Systems acquisition. This increase in payroll and payroll-related expenses also includes an increase in sales commissions of \$16.4 million and a reduction to incentive compensation expense of \$36.8 million.

SG&A expenses not related to payroll and payroll-related costs for the first six months of 2023 were \$613.7 million, an increase of \$83.7 million compared to the same period in 2022, which primarily reflects higher costs to operate our facilities of \$22.5 million, and increased transportation costs of \$11.9 million as a result of significant sales growth, and the Rahi Systems acquisition, as well as higher employee expenses of \$11.3 million due to increased headcount. In addition, digital transformation initiatives contributed to higher expenses of \$10.1 million in the first six months of 2023, including those related to professional and consulting fees. These increases were partially offset by the realization of integration cost synergies.

Depreciation and Amortization

Depreciation and amortization decreased \$1.5 million to \$91.3 million for the first six months of 2023 compared to \$92.8 million for the first six months of 2022. The first six months of 2023 and 2022 includes \$0.8 million and \$9.0 million, respectively, of accelerated amortization expense resulting from changes in the estimated useful lives of certain legacy trademarks that are migrating to our master brand architecture.

Income from Operations

Income from operations was \$710.2 million for the first six months of 2023 compared to \$654.7 million for the first six months of 2022. The increase of \$55.5 million, or 8.5%, reflects sales growth and lower cost of goods sold as a percentage of net sales, along with the realization of integration synergies. These favorable factors were partially offset by higher SG&A expenses, as described above.

Interest Expense, net

Net interest expense totaled \$193.8 million for the first six months of 2023 compared to \$132.1 million for the first six months of 2022. The increase of \$61.7 million, or 46.7%, reflects higher borrowings and an increase in variable interest rates.

Other Expense, net

Other non-operating expense totaled \$10.9 million for the first six months of 2023 compared to \$2.3 million for the first six months of 2022. As disclosed in Note 9, "Employee Benefit Plans" of our Notes to the unaudited Condensed Consolidated Financial Statements, we recognized net benefits of \$0.7 million and \$7.1 million associated with the non-service cost components of net periodic pension (benefit) cost for the six months ended June 30, 2023 and 2022, respectively. Due to fluctuations in the U.S. dollar against certain foreign currencies, we recognized a net foreign currency exchange loss of \$13.2 million for the first six months of 2023 compared to a net loss of \$7.1 million for the first six months of 2022.

Income Taxes

The provision for income taxes was \$115.9 million for the first six months of 2023 compared to \$117.6 million in last year's comparable period, resulting in effective tax rates of 22.9% and 22.6%, respectively. The effective tax rates for the first six months of 2023 and 2022 reflect discrete income tax benefits of \$22.1 million and \$6.1 million, respectively, resulting from the exercise and vesting of stock-based awards. The effective tax rate for the first six months of 2022 also reflects a discrete income tax benefit of \$13.4 million resulting from a reduction to the valuation allowance recorded against foreign tax credit carryforwards. These discrete income tax benefits reduced the effective tax rates in such periods by approximately 4.4 and 3.7 percentage points, respectively.

Net Income and Earnings per Share

Net income and earnings per diluted share attributable to common stockholders were \$361.5 million and \$6.90, respectively, for the first six months of 2023 compared to \$373.2 million and \$7.15, respectively, for the first six months of 2022. Adjusted for merger-related and integration costs, restructuring costs, accelerated trademark amortization expense, and the related income tax effects, net income and earnings per diluted share attributable to common stockholders were \$391.3 million and \$7.47, respectively, for the first six months of 2023. Adjusted for merger-related and integration costs, accelerated trademark amortization expense, and the related income tax effects, net income and earnings per diluted share attributable to common stockholders were \$408.6 million and \$7.82, respectively, for the first six months of 2022.

Adjusted EBITDA

Adjusted EBITDA was \$863.0 million for the first six months of 2023 compared to \$808.5 million for the first six months of 2022. Adjusted EBITDA increased \$54.5 million, or 6.7% year-over-year. The increase primarily reflects the \$851.7 million increase in net sales, partially offset by a corresponding increase in cost of goods sold of \$639.3 million, and a \$158.4 million increase in SG&A expenses, as described above. Also contributing to the increase in adjusted EBITDA was an increase in restructuring costs of \$9.8 million comprised of severance costs pursuant to an ongoing restructuring plan, partially offset by decreases in stock-based compensation expense and merger-related and integration costs of \$0.7 million and \$8.6 million, respectively.

Adjusted EBITDA	\$ 372.0	\$ 427.9					
Adjusted EBITDA Margin %	8.6 %	9.7 %					

EES reported net sales of \$4,335.4 million for the first six months of 2023 compared to \$4,420.1 million for the first six months of 2022, a decrease of \$84.7 million, or 1.9%. Adjusting for the unfavorable impact from fluctuations in foreign exchange rates of 1.3%, EES organic sales for the first six months of 2023 declined by 0.6%, reflecting volume contraction, including downturns in the construction and manufactured structures businesses, partially offset by continued momentum in our industrial business, which negatively impacted organic net sales by approximately 1%. In addition, a transfer of certain customer accounts to the CSS segment negatively impacted organic net sales for EES by approximately 3%. These negative factors were partially offset by the impact of changes in price, which favorably impacted organic sales by approximately 3%.

EES reported adjusted EBITDA of \$372.0 million for the first six months of 2023, or 8.6% of net sales, compared to \$427.9 million for the first six months of 2022, or 9.7% of net sales. Adjusted EBITDA decreased \$55.9 million, or 13.1% year-over-year. The decrease primarily reflects the \$84.7 million decrease in EES net sales, as described above, partially offset by a corresponding decrease in cost of goods sold of \$70.0 million. SG&A expenses increased \$40.8 million as compared to the prior year, which was primarily attributed to higher SG&A payroll and payroll-related expenses of \$36.0 million as a result of higher salaries due to wage inflation and increased headcount. This increase in payroll and payroll-related expenses also includes a reduction to incentive compensation expense of \$14.0 million.

Volume growth, which includes strong growth in our network infrastructure and security solutions businesses and the benefits of cross selling, favorably impacted organic sales by approximately 6%. The transfer of certain customer accounts from the EES segment also positively impacted organic net sales for CSS by approximately 3%.

CSS reported adjusted EBITDA of \$335.0 million for the first six months of 2023, or 9.3% of net sales, compared to \$273.1 million for the first six months of 2022, or 9.0% of net sales. Adjusted EBITDA increased \$61.9 million, or 22.7% year-over-year. The increase primarily reflects the \$546.7 million increase in CSS net sales, partially offset by a corresponding increase in cost of goods sold of \$418.3 million due to the factors impacting the overall business, as described above. SG&A expenses increased \$69.0 million as compared to the prior year, which was primarily attributed to higher SG&A payroll and payroll-related expenses of \$46.3 million as a result of higher salaries due to wage inflation and increased headcount, including the impact of the Rahi Systems acquisition. This increase in payroll and payroll-related expenses also includes an increase in sales commissions of \$8.4 million and a reduction to incentive compensation expense of \$5.2 million. Additionally, higher costs to operate our facilities of \$8.3 million and increased transportation costs of \$5.6 million as a result of sales growth, and the Rahi Systems acquisition, contributed to the year-over-year increase in SG&A expenses.

Adjusted EBITDA Margin %	11.2 %	10.3 %					

UBS reported net sales of \$3,349.1 million for the first six months of 2023 compared to \$2,959.4 million for the first six months of 2022, an increase of \$389.7 million, or 13.2%. Adjusting for the unfavorable impact of fluctuations in foreign exchange rates of 0.5%, UBS organic sales for the first six months of 2023 grew by 13.7%, reflecting the impact of changes in price, which favorably impacted organic sales by approximately 9%. Volume growth, which includes secular trends in the utility business that are driving growth, expansion in our integrated supply business, and the benefits of cross selling partially offset by lower sales in our broadband business due to certain customers depleting existing inventories and an overall downturn in the broadband business, particularly in Canada, favorably impacted organic sales by approximately 5%.

UBS reported adjusted EBITDA of \$376.3 million for the first six months of 2023, or 11.2% of net sales, compared to \$305.4 million for the first six months of 2022, or 10.3% of net sales. Adjusted EBITDA increased \$70.9 million, or 23.2% year-over-year. The increase primarily reflects the \$389.7 million increase in UBS net sales, partially offset by a corresponding increase in cost of goods sold of \$291.0 million due to the factors impacting the overall business, as described above. SG&A expenses increased \$28.2 million as compared to the prior year, which was primarily attributed to higher SG&A payroll and payroll-related expenses of \$13.0 million as a result of higher salaries due to wage inflation and increased headcount. This increase in payroll and payroll-related expenses also includes an increase in sales commissions of \$2.2 million and a reduction to incentive compensation expense of \$2.1 million. Additionally, higher costs to operate our facilities of \$4.7 million and increased transportation costs of \$5.3 million as a result of sales growth, contributed to the year-over-year increase in SG&A expenses.

Note: Adjusted EBITDA and Adjusted EBITDA margin % are non-GAAP financial measures that provide indicators of our performance and ability to meet debt service requirements. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation and amortization before other non-operating expenses (income), non-cash stock-based compensation expense, merger-related and integration costs, and restructuring costs. Adjusted EBITDA margin % is calculated by dividing Adjusted EBITDA by net sales.

Note: For the six months ended June 30, 2023, SG&A expenses, income from operations, the provision for income taxes and earnings per diluted share have been adjusted to exclude merger-related and integration costs, restructuring costs, accelerated amortization expense associated with migrating to our master brand architecture, and the related income tax effects. For the six months ended June 30, 2022, SG&A expenses, income from operations, the provision for income taxes and earnings per diluted share have been adjusted to exclude merger-related and integration costs, accelerated amortization expense associated with migrating to our master brand architecture, and the related income tax effects. These non-GAAP financial measures provide a better understanding of our financial results on a comparable basis.

Liquidity and Capital Resources

Our liquidity needs generally arise from fluctuations in our working capital requirements, information technology investments, capital expenditures, acquisitions and debt service obligations. As of June 30, 2023, we had \$514.2 million in available borrowing capacity under our Revolving Credit Facility, after giving effect to outstanding letters of credit and certain borrowings under our international lines of credit, and \$75.0 million of available borrowing capacity under our Receivables Facility, which combined with available cash of \$313.8 million, provided liquidity of \$903.0 million. Cash included in our determination of liquidity represents cash in certain deposit and interest-bearing investment accounts. We monitor the depository institutions that hold our cash and cash equivalents on a regular basis, and we believe that we have placed our deposits with creditworthy financial institutions.

We regularly review our mix of fixed versus variable rate debt, and we may, from time to time, issue or retire borrowings and/or refinance existing debt in an effort to mitigate the impact of interest rate and foreign exchange rate fluctuations, and to maintain a cost-effective capital structure consistent with our anticipated capital requirements. Economic conditions contributed to increases in interest rates during 2022 and 2023. Further increases will raise the rates we pay on our variable rate debt and will contribute to higher interest expense versus prior periods.

As of June 30, 2023, approximately 51% of our debt portfolio was comprised of fixed rate debt. We believe our capital structure has an appropriate mix of fixed versus variable rate debt and secured versus unsecured instruments.

Over the next several quarters, we expect that our excess liquidity will be directed primarily at debt reduction, integration activities, returning capital to shareholders through the payment of dividends and our existing share repurchase authorization, or potential acquisitions. We expect to maintain sufficient liquidity through our credit facilities and cash balances. We believe cash provided by operations and financing activities will be adequate to cover our operational and business needs for at least the next twelve months.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES

We communicate on a regular basis with our lenders regarding our financial and working capital performance, and liquidity position. We were in compliance with all financial covenants and restrictions contained in our debt agreements as of June 30, 2023.

We also measure our ability to meet our debt obligations based on our financial leverage ratio, which was 2.8 as of June 30, 2023 and 2.9 as of December 31, 2022.

The following table sets forth our financial leverage ratio, which is a non-GAAP financial measure, for the periods presented:

⁽¹⁾ Merger-related and integration costs include integration and professional fees associated with the integration of Wesco and Anixter, including digital transformation costs, as well as advisory, legal, and separation costs associated with the merger between the two companies.

⁽²⁾ Restructuring costs include severance costs incurred pursuant to an ongoing restructuring plan.

⁽³⁾ Debt is presented in the condensed consolidated balance sheets net of debt discount and debt issuance costs, and includes adjustments to record the long-term debt assumed in the merger with Anixter at its acquisition date fair value.

Note: Financial leverage ratio is a non-GAAP measure of the use of debt. Financial leverage ratio is calculated by dividing total debt, excluding debt discount, debt issuance costs and fair value adjustments, net of cash, by adjusted EBITDA. EBITDA is defined as the trailing twelve months earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as the trailing twelve months EBITDA before other non-operating expense (income), non-cash stock-based compensation expense, merger-related and integration costs, and restructuring costs.

Most of the undistributed earnings of our foreign subsidiaries have been taxed in the U.S. under either the one-time tax imposed on the deemed repatriation of undistributed foreign earnings, or the global intangible low-taxed income tax regime imposed by the Tax Cuts and Jobs Act of 2017. Future distributions of previously taxed earnings by our foreign subsidiaries should, therefore, result in minimal U.S. taxation. We continue to assert that the remaining undistributed earnings of our foreign subsidiaries are indefinitely reinvested. The distribution of earnings by our foreign subsidiaries in the form of dividends, or otherwise, may be subject to additional taxation. We believe that we can maintain sufficient liquidity for our domestic operations and commitments without repatriating cash from our foreign subsidiaries.

We finance our operating and investing needs primarily with borrowings under our Revolving Credit Facility and Receivables Facility, as well as uncommitted lines of credit entered into by certain of our foreign subsidiaries to support local operations, some of which are overdraft facilities. The Revolving Credit Facility has a borrowing limit of \$1,725 million and the purchase limit under the Receivables Facility is \$1,625 million. As of June 30, 2023, we had \$1,175.0 million and \$1,550.0 million outstanding under the Revolving Credit Facility and Receivables Facility, respectively. The maximum borrowing limits of our international lines of credit vary by facility and range between \$0.6 million and \$31.0 million. Our international lines of credit generally are renewable on an annual basis and certain facilities are fully and unconditionally guaranteed by Wesco Distribution. Accordingly, certain borrowings under these lines directly reduce availability under our Revolving Credit Facility. As of June 30, 2023, there was \$8.2 million of borrowing capacity available under the international lines of credit that did not directly reduce availability under the Revolving Credit Facility. As of June 30, 2023, we had \$3.3 million outstanding under our international lines of credit.

As disclosed in Note 8, "Debt" of our Notes to the unaudited Condensed Consolidated Financial Statements, on March 1, 2023, we repaid the \$58.6 million aggregate principal amount of our 5.50% Anixter Senior Notes due 2023. The repayment was funded with borrowings under our Revolving Credit Facility and had no impact on our results of operations.

For additional disclosure of our debt instruments, including our outstanding indebtedness as of June 30, 2023, see Note 8, "Debt" of our Notes to the unaudited Condensed Consolidated Financial Statements.

An analysis of cash flow for the first six months of 2023 and 2022 follows:

Operating Activities

Net cash provided by operating activities for the first six months of 2023 totaled \$62.2 million, compared to \$304.5 million of cash used in operating activities for the first six months of 2022. Net cash provided by operating activities for the first six months of 2023 included net income of \$389.6 million and non-cash adjustments to net income totaling \$139.8 million, which were primarily comprised of depreciation and amortization of \$91.3 million, stock-based compensation expense of \$23.9 million, deferred income taxes of \$16.2 million, and amortization of debt discount and debt issuance costs of \$7.4 million. Other sources of cash in the first six months of 2023 included a decrease in other accounts receivable of \$55.7 million due primarily to the collection of supplier volume rebates earned in 2022 in excess of income accrued during the current period, partially offset by an increase in receivables for supplier price agreements. Primary uses of cash in the first six months of 2023 included an increase in trade accounts receivable of \$162.9 million due to the timing of receipts from customers, a decrease in accrued payroll and benefit costs of \$134.1 million resulting primarily from the payment of management incentive compensation earned in 2022, partially offset by the accrual of management incentive compensation earned in the current year, a decrease in accounts payable of \$78.6 million due to the timing of payments to suppliers. Net operating cash flow was also negatively impacted by \$73.9 million from an increase in inventories. Inventories grew at a slower rate than sales, as supply chain lead times have continued to normalize. Uses of cash in the first six months of 2023 also included an increase in other current and noncurrent assets of \$56.9 million primarily due to an increase in capitalized costs associated with developing cloud computing arrangements to support our digital transformation initiatives, and a decrease in other current and noncurrent liabilities of \$16.5 million.

Net cash used in operating activities for the first six months of 2022 totaled \$304.5 million, which included net income of \$402.7 million and non-cash adjustments to net income totaling \$129.8 million, which were primarily comprised of depreciation and amortization of \$92.8 million, stock-based compensation expense of \$24.7 million, amortization of debt discount and debt issuance costs of \$8.1 million, and deferred income taxes of \$1.3 million. Other sources of cash in the first six months of 2022 included an increase in accounts payable of \$534.3 million due to higher purchases of inventory and an increase in other current and noncurrent liabilities of \$88.1 million primarily due to an increase in accrued taxes. Primary uses of cash in the first six months of 2022 included an increase in trade accounts receivable of \$716.8 million resulting from higher sales, an increase in inventories of \$530.8 million due to investments to both address supply chain challenges and support our strong sales growth opportunities, a decrease in accrued payroll and benefit costs of \$115.8 million resulting primarily from the payment of management incentive compensation earned in 2021, an increase in other current and noncurrent assets of \$80.7 million primarily due to an increase in capitalized costs associated with implementing cloud computing arrangements to support our digital transformation initiatives, and an increase in other accounts receivable of \$15.3 million.

Investing Activities

Net cash used in investing activities for the first six months of 2023 was \$43.7 million compared to \$31.0 million during the first six months of 2022. Included in the first six months of 2023 were capital expenditures of \$44.3 million compared to \$31.6 million for the six month period ended June 30, 2022. Capital expenditures in the first six months of 2023 primarily consisted of internal-use computer software and information technology hardware to support our digital transformation initiatives, as well as equipment and leasehold improvements to support our global network of branches, warehouses and sales offices.

Financing Activities

Net cash used in financing activities for the first six months of 2023 was \$20.4 million, compared to \$340.5 million of net cash provided by financing activities during the first six months of 2022. During the first six months of 2023, financing activities were primarily comprised of net borrowings of \$151.7 million related to our Revolving Credit Facility, net borrowings of \$15.0 million related to our Receivables Facility, and the repayment of our \$58.6 million aggregate principal amount of 5.50% Anixter Senior Notes due 2023. The first six months of 2023 also included \$38.4 million and \$28.7 million of dividends paid to holders of our common stock and Series A Preferred Stock, respectively, \$54.2 million of payments for taxes related to the exercise and vesting of stock-based awards, and net repayments on our various international lines of credit of approximately \$3.8 million.

During the first six months of 2022, financing activities were primarily comprised of net borrowings of \$288.0 million related to our Revolving Credit Facility, and net borrowings of \$105.0 million related to our Receivables Facility. The first six months of 2022 also included \$28.7 million of dividends paid to holders of our Series A Preferred Stock, \$17.2 million of payments for taxes related to the exercise and vesting of stock-based awards, and net proceeds from our various international lines of credit of approximately \$1.6 million.

Contractual Cash Obligations and Other Commercial Commitments

There were no material changes in our contractual obligations and other commercial commitments that would require an update to the disclosure provided in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

Seasonality

Our operating results are not significantly affected by seasonal factors. Sales during the first and fourth quarters have historically been affected by a reduced level of activity due to the impact of weather on projects. Sales typically increase beginning in March, with slight fluctuations per month through October. During periods of economic expansion or contraction, our sales by quarter have varied significantly from this pattern.

Critical Accounting Estimates

There have been no significant changes to the critical accounting estimates disclosed in Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

Recent Accounting Standards

See Note 2, "Accounting Policies" of our Notes to the unaudited Condensed Consolidated Financial Statements for a description of recently adopted and recently issued accounting standards.

Forward-Looking Statements

All statements made herein that are not historical facts should be considered as "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially. These statements include, but are not limited to, statements regarding business strategy, growth strategy, competitive strengths, productivity and profitability enhancement, competition, new product and service introductions and liquidity and capital resources, as well as statements regarding the expected benefits and costs of the transaction between Wesco and Anixter International Inc., including anticipated future financial and operating results, synergies, accretion and growth rates, and the combined company's plans, objectives and expectations. Such statements can generally be identified by the use of words such as "anticipate," "plan," "believe," "estimate," "intend," "expect," "project," and similar words, phrases or expressions or future or conditional verbs such as "could," "may," "should," "will," and "would," although not all forward-looking statements contain such words. These forward-looking statements are based on current expectations and beliefs of Wesco's management, as well as assumptions made by, and information currently available to, Wesco's management, current market trends and market conditions and involve risks and uncertainties, many of which are outside of Wesco's and Wesco's management's control, and which may cause actual results to differ materially from those contained in forward-looking statements. Accordingly, you should not place undue reliance on such statements.

Important factors that could cause actual results or events to differ materially from those presented or implied in the forward-looking statements include, among others, the failure to achieve the expected benefits of the transaction between Wesco and Anixter International Inc. or the anticipated benefits of Wesco's acquisition of Rahi Systems Holdings, Inc. in the expected timeframe or at all, unexpected costs or problems that may arise in successfully integrating the businesses of the companies, the impact of increased interest rates or borrowing costs, failure to adequately protect Wesco's intellectual property or successfully defend against infringement claims, failure to execute Wesco's environmental, social and governance (ESG) programs as planned, disruption of information technology systems or operations, natural disasters (including as a result of climate change), health epidemics, pandemics and other outbreaks (such as the ongoing COVID-19 pandemic, including any resurgences or new variants), supply chain disruptions, geopolitical issues, such as the impact of Russia's invasion of Ukraine, including the impact of sanctions or other actions taken by the U.S. or other countries against Russia (as well as those imposed on China), the increased risk of cyber incidents and exacerbation of key materials shortages, inflationary cost pressures, material cost increases, demand volatility, and logistics and capacity constraints, which may have a material adverse effect on the combined company's business, results of operations and financial condition. All such factors are difficult to predict and are beyond the company's control. Additional factors that could cause results to differ materially from those described above can be found in WESCO International, Inc.'s Annual Report on Form 10-K for the fiscal year ended December 31, 2022 and WESCO International, Inc.'s other reports filed with the SEC.

Item 3. Quantitative and Qualitative Disclosures about Market Risks.

For a discussion of changes to the market risks that were previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022, refer to Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and to Part II, Item 1A, "Risk Factors".

Item 4. Controls and Procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)). Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures and internal control over financial reporting were effective as of the end of the period covered by this report.

There were no changes in the Company's internal control over financial reporting that occurred during the quarterly period ended June 30, 2023, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

As set forth in Note 11, "Commitments and Contingencies" to the Notes to the unaudited Condensed Consolidated Financial Statements, from time to time, a number of lawsuits and claims have been or may be asserted against us relating to the conduct of our business, including litigation relating to commercial, product and employment matters (including wage and hour). The outcome of any litigation cannot be predicted with certainty, and some lawsuits may be determined adversely to us. However, management does not believe that the ultimate outcome of any such pending matters is likely to have a material adverse effect on our financial condition or liquidity, although the resolution in any fiscal period of one or more of these matters may have a material adverse effect on our results of operations for that period.

Item 1A. Risk Factors.

There have been no material changes to the risk factors previously disclosed in Item 1A. to Part I of WESCO International, Inc.'s Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets forth all issuer purchases of common stock during the three months ended June 30, 2023:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Approximate Dollar Value of Shares That May Yet be Purchased Under the Plans or Programs ⁽²⁾ (In millions)
April 1 – April 30, 2023	4,045	\$ 141.87	—	\$ 988.9
May 1 – May 31, 2023	2,889	\$ 133.89	—	\$ 988.9
June 1 – June 30, 2023	10,085	\$ 159.55	—	\$ 988.9
Total	17,019	\$ 150.99	—	

⁽¹⁾ These shares were surrendered by stock-based compensation plan participants to satisfy tax withholding obligations arising from the exercise of stock-settled stock appreciation rights, and vesting of restricted stock units and performance-based awards.

⁽²⁾ On June 1, 2022, Wesco announced that its Board of Directors authorized, on May 31, 2022, the repurchase of up to \$1 billion of the Company's common stock and Series A Preferred Stock. The share repurchase authorization has no expiration date and may be modified, suspended, or terminated at any time without prior notice.

Item 5. Other Information.

(a) As previously reported on Form 8-K filed on June 12, 2023, the Board of Directors of WESCO International, Inc. elected Glynis A. Bryan as an independent member of its Board of Directors, effective September 1, 2023. Ms. Bryan is already a member of the board of directors of a U.S. public utility company, and her concurrent service on both boards is subject to approval by the Federal Energy Regulatory Commission, which may affect her appointment as a Director of Wesco International or its timing.

CERTIFICATION

I, John J. Engel, certify that:

1. I have reviewed this quarterly report on Form 10-Q of WESCO International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
